When logging in for the first time, you are required to change your password

You will be prompted to select your preferred drafting method for creating new filings. Choose one of the following:

- **Wizard Prompt Flow** – This method uses a step-by-step guided approach, like a questionnaire. You will be asked a series of questions about the details of the UCC filing (e.g., debtor information, secured party, collateral description). Based on your responses, Falcon will complete the relevant UCC forms for you
- **In-Form Drafting** – This method allows you to manually fill in the UCC forms directly within the platform. This is suited for experienced users who prefer full control over the content and layout of the forms

This prompt will only appear the first time you log into Falcon
